---

AUSTIN, TEXAS

PROCEEDINGS

---

**FORTY-FIFTH DAY**  
(Monday, May 26, 2025)

The Senate met at 10:29 a.m. pursuant to adjournment and was called to order by Senator Flores.

The roll was called and the following Senators were present: Alvarado, Bettencourt, Birdwell, Blanco, Campbell, Cook, Creighton, Eckhardt, Flores, Gutierrez, Hagenbuch, Hall, Hancock, A. Hinojosa, J. Hinojosa, Huffman, Hughes, Johnson, King, Kolkhorst, Menéndez, Middleton, Miles, Nichols, Parker, Paxton, Perry, Schwertner, Sparks, West, Zaffirini.

The Presiding Officer announced that a quorum of the Senate was present.

Senator Hancock offered the invocation as follows:

Loving and gracious heavenly Father, what love You've shown to us. And not only would, You are more willing to lay down Your life for a friend, but as a father of Harrison, Chloe, Skylar, You sent Your son, a perfect man, faultless, sinless, to save the world of depraved sinners that are selfish, arrogant, prideful, incapable of doing any good apart from You. So, as we start this day, may we reflect on that and be reminded of those that You've called to the service within our military. That You gave them that servants' heart to step forward and their willingness to lay down their life for people they did not know and for a country they loved. So, we thank You for Your example that is beyond any man's example. But we thank You for these men, on this Memorial Day, that also gave us an example, and not perfectly in line with the giving of Your son for us but so much closer than I find myself willing to give. I pray for Your wisdom today. I pray that in all we do that glorifying You is first in our hearts. In Your name I pray. Amen.

Senator Zaffirini moved that the reading of the Journal of the proceedings of the previous day be dispensed with and the Journal be approved as printed.

The motion prevailed without objection.

**Amendment**

Amend **SB 75** by substituting in lieu thereof the following:

**A BILL TO BE ENTITLED****AN ACT**

relating to the resilience of the electric grid and certain municipalities.

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF TEXAS:

SECTION 1. The legislature finds that:

(1) electric grid outages threaten the lives of the citizens of this state and pose a disproportionately large risk to:

(A) the elderly, vulnerable, and underprivileged within this state; and

(B) communities facing disproportionate environmental health burdens and population vulnerabilities relating to facilities such as chemical plants and refineries that can become environmental disaster areas when taken off-line due to loss of electricity;

(2) the 16 critical infrastructure sectors identified in President Barack Obama's Presidential Policy Directive "Critical Infrastructure Security and Resilience" (PPD-21) (chemical, commercial facilities, communications, critical manufacturing, dams, defense industrial base, emergency services, energy, financial services, food and agriculture, government facilities, health care and public health, information technology, nuclear reactors, materials, and waste, transportation systems, water and wastewater systems) depend on the electric grid in this state and make the grid's protection vital to the economy of this nation and homeland security;

(3) the power outage that occurred in this state in February 2021 caused:

(A) death and suffering in this state;

(B) economic loss to this state's economy;

(C) impacts to all critical infrastructures in this state;

(D) the dispatch of generation units that likely exceeded limits established by the Environmental Protection Agency for sulfur dioxide, nitrogen oxide, mercury, and carbon monoxide emissions and wastewater release limits;

(E) radically increased pricing of electricity and made electric power bills unaffordable to many customers across this state; and

(F) exacerbation of COVID-19 pandemic risk by forcing many of the state's citizens to consolidate at warming centers and in other small spaces where warmth for survival superseded social distancing protocols;

(4) a previous large-scale power outage occurred in this state in February 2011 during which 4.4 million customers were affected;

(5) this state is uniquely positioned to prevent power outages because this state is a net exporter of energy and is the only state with an electric grid almost exclusively within its territorial boundaries;

(6) the 2011 and 2021 power outages call into question:

(A) whether too much risk has been accepted regarding weatherization of electric generation infrastructure;

(B) whether this state lacks the internal distribution structure and control systems to manage rolling outages; and

(C) whether sufficient resources have been allocated toward overall grid resilience;

(7) public confidence in the resilience of the electric grid in this state is essential to ensuring economic prosperity, domestic tranquility, continuity of government, and life-sustaining systems;

(8) a resilient electric grid that offers businesses in this state continuity of operations in the event of a natural or man-made disaster will be an unrivaled attraction for businesses to expand or move their operations to this state;

(9) a resilient electric grid that can operate in the event of a natural or man-made disaster will protect important facets of this state, including its military installations and environment;

(10) current market incentives and regulations are not sufficient for electric utilities to:

(A) prioritize grid security and resilience; and

(B) protect the grid against hazards;

(11) protection of the electric grid in this state against hazards would assure businesses and the citizens of this state that the "lights will be back on first in Texas" in the event of a nationwide catastrophe affecting electric infrastructure, sparing this state from catastrophic societal and environmental consequences; and

(12) when this state begins implementation of the plan for all hazards resilience described by Section 44.007, Utilities Code, as added by this Act, to protect the electric grid in this state, short-term and long-term economic benefits will far exceed even the most optimistic estimates of the conventional economic incentives provided by tax abatements to attract businesses to this state.

SECTION 2. Subtitle B, Title 2, Utilities Code, is amended by adding Chapter 44 to read as follows:

#### CHAPTER 44. GRID RESILIENCE

##### Sec. 44.001. DEFINITIONS. In this chapter:

###### (1) "All hazards" means:

(A) terrestrial weather, including wind, hurricanes, tornadoes, flooding, ice storms, extended cold weather events, heat waves, and wildfires;

(B) seismic events, including earthquakes and tsunamis;

(C) physical threats, including terrorist attacks with direct fire, drones, explosives, and other methods of physical sabotage;

(D) cyber attacks, including malware attacks and hacking of unprotected or compromised information technology networks;

(E) manipulation of operational technology devices, including sensors, actuators, and drives;

(F) electromagnetic threats through man-made radio frequency weapons, high-altitude nuclear electromagnetic pulses, and naturally occurring geomagnetic disturbances;

(G) electric generation supply chain vulnerabilities, including insecure or inadequate fuel transportation or storage; and

(H) insider threats caused by compromised or hostile personnel working within government or the utility industry.

(2) "Micro-grid" means a group of interconnected loads and distributed energy resources inside clearly defined electrical boundaries.

(3) "Public utility" means an entity that generates, transmits, or distributes electric energy to the public, including an electric utility, an electric cooperative, a municipally owned utility, and a river authority.

(4) "Security commission" means the Texas Grid Security Commission.

Sec. 44.002. TEXAS GRID SECURITY COMMISSION. (a) The Texas Grid Security Commission is composed of the following members:

(1) a representative of the Texas Division of Emergency Management appointed by the chief of that division;

(2) a representative of the commission appointed by that commission;

(3) a representative of the Railroad Commission of Texas appointed by that commission;

(4) a representative of the independent organization certified under Section 39.151 for the ERCOT power region appointed by the chief executive officer of that organization;

(5) a representative of power generation companies appointed by the chief of the Texas Division of Emergency Management; and

(f) The commission shall adopt rules requiring each operator involved in the transfer of an inactive well to jointly submit to the commission a written affirmation stating:

(1) the well is in compliance with the requirements of this section;

(2) the transfer was a business practice performed in good faith; and

(3) the operator to whom the inactive well was transferred will ensure continued compliance with this section.

(g) An extension granted under Subsection (c)(1) is not transferable to another operator.

The report must include appropriate documentation of the results of the test.

### **REASON FOR VOTE**

Senator Eckhardt submitted the following reason for vote on **CSHB 3133**:

I voted against House Bill 3133 because, although it addresses a serious and emerging technological threat, it does so through a flawed and constitutionally questionable framework.

The proliferation of explicit deep fake material online is deeply concerning, and I support efforts to require social media platforms to respond swiftly and transparently to user complaints regarding such harmful content. However, HB 3133 attempts to address this issue by embedding new requirements into the existing structure of Chapter 120, Business & Commerce Code—a statute originally enacted by House Bill 20 during the second special session of the 87th Legislature.

HB 20, which is the subject of ongoing federal litigation, includes provisions that prohibit social media platforms from engaging in viewpoint-based content moderation and establish a private right of action against platforms alleged to censor user speech. These provisions have been challenged as unconstitutional under the First Amendment, with the United States District Court for the Western District of Texas upholding that some of the provisions this bill relies on, including the complaint system and content removal, were facially unconstitutional.

By incorporating deep fake regulation into this contested legal framework, HB 3133 risks further entrenching an unconstitutional law and may inadvertently undermine the enforceability of its own provisions. Rather than strengthening protections against deep fake abuse, this bill could revive and legitimize elements of HB 20 that have been broadly criticized for violating free speech principles.

For these reasons, I respectfully voted no on House Bill 3133.

ECKHARDT
