REMARKS ORDERED PRINTED

On motion of Senator Taylor and by unanimous consent, the remarks regarding **SR 14** were ordered reduced to writing and printed in the *Senate Journal* as follows:

President: Senator Taylor, on your resolution.

Senator Taylor: Thank you, Mr. President, and thank you, Members, for allowing me this opportunity to recognize a truly valuable part of Team Taylor. She first joined with me my last term in the Texas House when I became the Chairman of the Elections Committee. She was the first person we interviewed and I think we pretty well quit, stopped interviewing at that point once we met with Nicole. She had a valuable background that she has. We had to call a lot of people and say, sorry, position's already been filled, and she has proven that that was the accurate and correct assessment during that interview process. Nicole is one of the nicest people you'll meet here, one of the most knowledgeable, and she always has this beautiful smile. And if you've been around any of our committees we've worked on, you know Nicole and her presence and her knowledge base. A lot of you have used that knowledge in working on bills that you have and the things we've worked on with you. She's actually been with me for a decade. She's been in the building for 13 years, having served as a committee clerk, committee director for Natural Resources, and the Texas House with our former colleague, Allan Ritter, which I'll get back to in just a little bit. Allan Ritter, remember that name. You know, with her knowledge, skills and that, the things we've worked on, we've gotten some major things done during her time here, but one of the biggest things we've done that's going to have the longest lasting legacy that you all have helped on is the coastal barrier for the Gulf Coast. Nicole has been so involved in that. She's worked with the Army Corps of Engineers. She's worked with all the people, worked on that project and as you heard, if you listened to the resolution, she was named by the Governor to serve as the interim director for that, and I think that's going to be actually full-time Executive Director for the Gulf Coast Protection District. I can think of no one else better to fill that position to get such a important project moving forward and protecting our coast, our economy, the State of Texas, and our, and our country. Nicole is a great Texan and she'll be greatly missed in my office and, Mr. President, you did notice we have quite a fan club up in the audience. These are other staffers she's worked with, people in my offices she's worked with, and her partner, Nick, and her lovely little daughter, Elodie. Elodie, can you wave at us? Go ahead and stand up and wave at us so Mommy can see you. That's Elodie. So, she's done all that while raising this beautiful little girl and

have a little family. We're going to sorely miss Nicole in our office, but I know she's going to do great things with the Gulf Coast Protection District and once a part of Team Taylor, always part of Team Taylor. So, with that, I would move passage of the resolution or adoption of the resolution, Senate Resolution 14.

President: Senator Lucio, what purpose?

Senator Lucio: Speak on the resolution.

President: You are recognized.

Senator Lucio: Thank you, Mr. President. Chairman Taylor, thank you for sharing the background of this outstanding state employee, a true public servant, and she has distinguished herself greatly while working for you and for the people of Texas. I want to say that we need role models in a, with people who really represent the backbone of state government as Nicole has done over the years, and I want to commend the Governor for choosing her, you know, to take charge. I hope she becomes the permanent director of the Gulf Coast Protection District. Having lived on the coast all my life, I know how important coastal barriers issues are and I want to wish you a world of success. And, Mr. President, at the right time, I would like to make a motion to add all Members' names to the resolution. Thank you so much for this opportunity, Chairman Taylor, for all of us to hear the background on this distinguished public servant. Thank you.

President: Thank you, Senator Lucio. Any objection to the motion? Hearing none, the motion's adopted. Members, please rise for the adoption of the resolution. I think it would be appropriate. Members, all in favor? The resolution is adopted. And she's still waving.

Senator Taylor: Mr. President, if I could, I didn't finish my story. Allan Ritter, who was one of her first bosses here in the Capitol, guess who's on the board for the Gulf Coast Protection District? Allan Ritter. So, isn't it funny? I may very well be working for her someday in the future so, it's always good to take care of the people who work around you and with you because you never know where you're going to be in the future. But she has been a great member. If I could move that we add these comments to the Journal so that we can have those in her honor.

President: Any objection? Hearing none. Happy to do that. The motion's adopted.

Senator Taylor: Thank you, Members, and thank you, Mr. President. Thank you, Nicole.

President: Nicole, good luck to you. You did a great job, thank you.

SENATE RESOLUTION 13

Senator Whitmire offered the following resolution:

SR 13, In memory of William "Bill" Jeffrey.

The resolution was read.

On motion of Senator Nelson and by unanimous consent, the names of the Lieutenant Governor and Senators were added to the resolution as signers thereof.

On motion of Senator Whitmire, **SR 13** was adopted by a rising vote of the Senate.

In honor of the memory of William "Bill" Jeffrey, the text of the resolution is printed at the end of today's *Senate Journal*.

REMARKS ORDERED PRINTED

On motion of Senator Lucio and by unanimous consent, the remarks by Senator Whitmire and the President regarding **SR 13** were ordered reduced to writing and printed in the *Senate Journal* as follows:

President: Senator Whitmire.

Senator Whitmire: Thank you, Mr. President and Members. Members, Houston is mourning one of its finest this morning. Officer Jeffrey was shot serving a warrant Monday. His partner was wounded. And I know, serving in this body for a number of years, that if Houston's mourning the loss of one of our police officers, each of you, your districts, the state is mourning, and our nation surely is. The resolution speaks to the fine record that Officer Jeffrey has established working 30 years on the streets of Houston. Can you imagine the challenges that he's encountered? And the commendations speak highly. His wife retired this year from 30 years. They were looking forward to retirement benefits, were going to give him the opportunity to live well with their daughter, Lacie. So, my message this morning is, let's not wait, Mr. President, until we lose one of our finest. Let's honor these fine men and women each and every day that we come to work. We have, as a body, increased resources for law enforcement, certainly whether they are on the Border. Just last week, we had a combined effort of Members to give our inner city impact gang task force additional resources. So, I think the message is, let's not just talk the talk, let's walk the walk when we honor law enforcement. It's, law enforcement, has been very controversial the last couple of years, got pulled into the political arena, which I know they don't want to be. So, let's distinguish some of the mistakes that may have been made and realize that 99.9 percent of law enforcement make us safer, and quite frankly, that's where it starts. Economic development, education, infrastructure will not matter if we do not have public safety. This gentleman gave his life to make Houston, the state, and the nation safer. So, I ask you to join me in prayers for the family and for the officers that are still on the street today, wherever they may reside, Houston, Littlefield, Flower Mound, each and every community. When you see an officer, let's make certain that we thank them for the job they're doing and make sure that young people in schools recognize that law enforcement is their friend. Mr. President, I respectfully ask to pass this resolution in honor of Officer Jeffrey.

President: Senator, thank you for your strong words. You have been standing with law enforcement for your long career and it's not always popular these days. I honor you for speaking directly, and to be candid with you, this killer, who was shot and killed himself, was out on bond multiple times. And we need to start recalling judges who are letting criminals out on the street. We cannot continue in our big cities to see this happen or anywhere else. And it's come to light that a number of our courts in Houston and Harris County haven't even had a trial this year, many of our criminal courts not even holding trials. And this person should not have been out on the street.

That's why they had to go get him with a search warrant, because a judge let him out. And we ought to hold, we're held, we're held accountable in this body. We're held accountable, and these judges need to be held accountable, enough's enough. And the people in any city or rural area, wherever it is, we need to educate the voters of who's behind a lot of these deaths. I'm sorry for speaking out, but I just sit here, this is just over and over and over again. These people should not be on the streets. Members, let's, would you please rise.
