Disturb us, O Lord, when we are too pleased with ourselves, when our dreams have come true because we have dreamed too little, when we arrived safely because we sailed too close to the shore. Disturb us, O Lord, when with the abundance of things we possess, we have lost our thirst for the waters of life. Having fallen in love with life, we have ceased to dream of eternity and in our efforts to build a new Earth, we have allowed our vision of the new heaven to dim. Disturb us, O Lord, to dare more boldly, to venture on wider seas where storms will show Your mastery, where losing sight of the land, we shall find the stars. We ask You to push back the horizons of our hopes and to push into the future in strength, courage, hope, and love. Amen.

Senator Whitmire moved that the reading of the Journal of the proceedings of the previous day be dispensed with and the Journal be approved as printed.

(C) from either National Fire Protection Association (NFPA) 30 Ch. 22 or API Recommended Practice 2001, the commission shall require fire suppression systems on storage vessels subject to the protocol in the applicable standard; and

(2) for in-service storage vessels constructed after September 1, 2027:

(A) all of the standards listed in Subdivision (1); and

(B) API 650: Welded Tanks for Oil Storage and NFPA 30, chapter 22 location standards; and

(C) NFPA 30, chapter 22 location standards, except for reconstruction standards at an original storage vessel location.

(f) The applicable standard chosen by the commission under Subsection (e)(1)(C) only applies to material stored at atmospheric pressure with a flashpoint less than or equal to 100 Fahrenheit as defined by OSHA Process Safety Management.

(g) The applicable standard in Subsection (e)(2)(B) only applies to atmospheric storage vessels as defined in API 650.

(h) The commission may require a plan to control spills from atmospheric storage vessels that includes recommended practices in NFPA 30.

(i) An owner or operator of a storage vessel shall register with the commission, assess and report to the commission its current compliance status with the Performance Standards for Safety at Storage Vessels Program no later than September 1, 2027. For storage vessels constructed and brought into service after September 1, 2027, an owner or operator of a storage vessel shall register and certify its compliance status to the commission with the Performance Standards for Safety at Storage Vessels program no later than 30 days after start of operation.

(j) An owner or operator of a storage vessel shall comply with the Performance Standards for Safety at Storage Vessel Program requirements on completion of the next regularly scheduled out-of-service maintenance of the storage vessel by the owner or operator that occurs after September 1, 2027. However, all facilities must certify compliance status by no later than September 1, 2037. Any modifications or retrofits necessary for compliance with the Performance Standards for Safety at Storage Vessels Program should be made during these out-of-service maintenance periods as identified by the owner or operator unless the owner or operator makes and records with the commission a demonstration of technical impracticability that the commission approves.
(k) The commission in implementing the Performance Standards for Safety at Storage Vessels Program shall require an owner or operator of a storage vessel or a designated third party as assigned by the owner or operator to certify compliance status every 10 years with the standards referenced in Subsections (d) and (e) as applicable.

(l) The commission shall keep confidential information reported to, obtained by, or otherwise submitted to the commission that:

(2) may otherwise present a security risk, if disclosed publicly.

(m) The commission shall conduct on-site inspections of the registered/certified facilities at least once every five years to determine compliance with the Performance Standards for Storage Vessels Program. This subsection does not limit the commission's ability to inspect a facility under other state or federal regulations.

Sec. 26.3443. CERTAIN COMMISSION EXEMPTIONS AND RULES; AMENDMENTS AND ALTERNATIVE STANDARDS. (a) The commission, in implementing the Performance Standards for Safety at Storage Vessels Program under Section 26.3442, may approve exemption of specific storage vessels otherwise subject to Section 26.3442 from regulation under the program if the legal owner or operator submits a request to the commission demonstrating that the vessel presents a sufficiently low risk of floods, storm surges, hurricanes, accidents, fires, explosions, or other hazards such that it does not warrant regulation under the program.

(b) The commission shall establish through rulemaking the effective date of a federal law or regulation that the commission is implementing under Section 26.3442(d), or a national consensus standard that the commission is implementing under Section 26.3442(e). The commission shall amend through rulemaking changes if a federal law or regulation or national consensus standard is amended in a way that materially conflicts with the commission's current implementation of the Performance Standards for Safety at Storage Vessels Program except to the extent that the commission determines, after a cost-benefit analysis and if not prohibited under federal law, that the program as currently implemented by the commission sufficiently effective for protection of the health, safety, and welfare of the citizens of this state.

(c) Notwithstanding the requirement of Section 26.3442(e) that the commission include only critical safety elements from specified national consensus standards, the commission may initiate a rulemaking proceeding to determine whether, for certain vessels in certain situations, an alternative national consensus standard would be at least as effective for public health and safety but more cost effective for the persons affected to implement. The commission may by rule apply the alternative national consensus standard in circumstances under which it has determined the alternative standard is as effective for public health and safety but more cost effective.

Sec. 26.3444. CERTIFICATION FEE. (a) The commission by rule shall establish fees in amounts sufficient to recover the reasonable costs to:

(1) implement a registration program for affected facilities;

(2) review initial and ten-year certifications;

(3) amend certifications;

(b) The certification fee under Subsection (a) shall be deposited to the credit of an account to be named the Performance Standards for Safety at Storage Vessels Program Account.

(c) The commission may use the money in the Performance Standards for Safety at Storage Vessels Program account to pay:

(1) necessary expenses associated with the administration of the Performance Standards for Safety at Storage Vessels Program;

(2) expenses associated with the review and amendment of certifications, inspection of certified facilities, and enforcement of the applicable standards of Section 26.3442 and the rules and orders adopted by the Performance Standards for Safety at Storage Vessels Program.

A BILL TO BE ENTITLED
AN ACT
relating to the authority of the Texas Higher Education Coordinating Board to authorize certain degree programs offered by private postsecondary educational institutions.

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF TEXAS:

SECTION 1. Section 61.303, Education Code, as amended by S.B. 1781, Acts of the 85th Legislature, Regular Session, 2017, is reenacted and amended to read as follows:

Sec. 61.303. EXEMPTIONS. (a) Unless specifically provided otherwise, the provisions of this subchapter do not apply to an institution that is fully accredited by, and is not operating under sanctions imposed by, a recognized accrediting agency, or an institution or degree program that has received approval by a state agency authorizing the institution’s graduates to take a professional or vocational state licensing examination administered by that agency. The granting of permission by a state agency to a graduate of an institution to take a licensing examination does not by itself constitute approval of the institution or degree program required for an exemption under this subsection.

(b) The exemptions provided by Subsection (a) apply only to the degree level for which an institution is accredited, and if an institution offers to award a degree at a level for which it is not accredited, the exemption does not apply.

(c) Except as provided by Subsection (c-1), the board may approve the issuance of a certificate of authorization to grant degrees to an exempt institution or person. The board may adopt rules regarding a process to allow an exempt institution or person to apply for and receive approval for a certificate of authorization under this section.

(c-1) The board may not approve the issuance of a certificate of authorization for an exempt institution to grant a professional degree or to represent that credits earned in this state are applicable toward a professional degree except to the extent allowed for an authorized institution operating under a State Authorization Reciprocity Agreement (SARA). In this subsection, "professional degree" includes Doctor of Medicine (M.D.), Doctor of Osteopathy (D.O.), Doctor of Dental Surgery (D.D.S.), Doctor of Veterinary Medicine (D.V.M.), Juris Doctor (J.D.), and Bachelor of Laws (LL.B.).

(d) The board by rule may require an exempt institution or person to ensure that the financial resources and financial stability of the institution or person are adequate to provide education of a good quality and to fulfill the institution's or person's commitments to its enrolled students and may require the institution or person to provide to the board documentation of the institution's or person's compliance with those requirements. Rules adopted under this subsection must:
(1) require the institution or person to maintain reserves, lines of credit, or surety instruments that, when combined with tuition and fee receipts, are sufficient to allow the institution or person to fulfill its educational obligations to its enrolled students if the institution or person is unable to continue to provide instruction to its enrolled students for any reason; and

(2) require that the financial resources maintained under Subdivision (1) be conditioned to allow only the board to withdraw funds for the benefit of the institution’s or person’s enrolled students under the circumstance described by Subdivision (1).

(e) To enable the board to verify the conditions under which a certificate of authorization issued under this section is held, the board by rule may require an exempt institution or person to report to the board on a continuing basis other appropriate information in addition to the documentation required under Subsection (d).

(f) An exempt institution or person continues in that status only if the institution or person maintains accreditation by, and is not operating under sanctions imposed by, a recognized accrediting agency or otherwise meets the provisions of Subsection (a).

(g) The board by rule shall provide for due process and shall provide procedures for revoking or placing conditions on the exemption status of an institution or person or for revoking or placing conditions on a previously issued certificate of authorization.

(h) Under the rules described by Subsection (g), the board may revoke or place conditions on an institution’s or person’s exemption status or certificate of authorization only if the board has reasonable cause to believe that the institution or person has violated this subchapter or any rule adopted under this subchapter.

(i) Before revoking or placing conditions on an institution’s or person’s exemption status or certificate of authorization under Subsection (h), the board must provide to the institution or person written notice of the board’s impending action and include the grounds for that action.

(j) If the board places conditions on an institution’s or person’s exemption status or certificate of authorization under Subsection (h), until the board removes the conditions, the board may reexamine the applicable institution or person at least twice annually following the date the board provided notice under Subsection (i).

(k) A private postsecondary educational institution may not establish or operate a branch campus, extension center, or other off-campus unit in Texas except as provided by this subsection or the rules of the board. This subsection does not apply to a private or independent institution of higher education as defined by Section 61.003.

SECTION 2. Section 61.306, Education Code, is amended by amending Subsections (a) and (c) and adding Subsections (c-1) and (d) to read as follows:

(a) Subject to Subsections (c) and (c-1), the [The] board may issue a certificate of authority to grant a degree or degrees and to enroll students for courses which may be applicable toward a degree if it finds that the applicant meets the standards established by the board for certification.
(c) The board may not issue a certificate of authority for a private postsecondary educational institution to grant a professional degree or to represent that credits earned in this state are applicable toward a professional degree if the institution is chartered in a foreign country or has its principal office or primary educational program in a foreign country.

(c-1) The board may issue a certificate of authority for a private postsecondary educational institution to grant a professional degree or to represent that credits earned in this state are applicable toward a professional degree only if the board determines that:

(1) the capacity and ability of similar professional degree programs at institutions of higher education and private or independent institutions of higher education are insufficient to meet the state's current market needs;

(2) the institution seeking the certificate of authority:
   (A) has the necessary faculty and other resources to ensure student success; and
   (B) is subject to and agrees to meet the same standards for approval and all academic criteria applicable to similar professional degree programs offered by institutions of higher education and private or independent institutions of higher education; and

(3) sufficient placements are available to students for required field-based experience, such as clinicals or clerkships, for the proposed professional degree.

(d) In this section:

(1) "Institution of higher education" and "private or independent institution of higher education" have the meanings assigned by Section 61.003.

(2) "Professional degree" includes a Doctor of Medicine (M.D.), Doctor of Osteopathy (D.O.), Doctor of Dental Surgery (D.D.S.), Doctor of Veterinary Medicine (D.V.M.), Juris Doctor (J.D.), and Bachelor of Laws (LL.B.).

SECTION 1. The heading to Title 6, Utilities Code, is amended to read as follows:

TITLE 6. PRIVATE [WIND] POWER AGREEMENTS

(4) "Solar power facility agreement" means a lease agreement between a grantee and a landowner that authorizes the grantee to operate a solar power facility on the leased property.

Sec. 302.0002. APPLICABILITY. This chapter applies only to a solar power facility that is a generation asset as defined by Section 39.251.

Sec. 302.0003. WAIVER VOID; REMEDIES. (a) A provision of a solar power facility agreement that purports to waive a right or exempt a grantee from a liability or duty established by this chapter is void.
(b) A person who is harmed by a violation of this chapter is entitled to appropriate injunctive relief to prevent further violation of this chapter.
(c) The provisions of this section are not exclusive. The remedies provided in this section are in addition to any other procedures or remedies provided by other law.
REQUIRED AGREEMENT PROVISIONS ON FACILITY REMOVAL. (a) A solar power facility agreement must provide that the grantee is responsible for removing the grantee’s solar power facilities from the landowner’s property and that the grantee shall, in accordance with any other applicable laws or regulations, safely:

(1) clear, clean, and remove from the property each solar energy device, transformer, and substation;

(2) for each foundation of a solar energy device, transformer, or substation installed in the ground:
   (A) clear, clean, and remove the foundation from the ground to a depth of at least three feet below the surface grade of the land in which the foundation is installed; and
   (B) ensure that each hole or cavity created in the ground by the removal is filled with soil of the same type or a similar type as the predominant soil found on the property;

(3) for each buried cable, including power, fiber-optic, and communications cables, installed in the ground:
   (A) clear, clean, and remove the cable from the ground to a depth of at least three feet below the surface grade of the land in which the cable is installed; and

Sec. 302.0005. REQUIRED AGREEMENT PROVISIONS ON FINANCIAL ASSURANCE. (a) A solar power facility agreement must provide that the grantee shall obtain and deliver to the landowner evidence of financial assurance that conforms to the requirements of this section to secure the performance of the grantee’s obligation to remove the grantee’s solar power facilities located on the landowner’s property as described by Section 302.0004. Acceptable forms of financial assurance include a parent company guaranty with a minimum investment grade credit rating for the parent company issued by a major domestic credit rating agency, a letter of credit, a bond, or another form of financial assurance reasonably acceptable to the landowner.

(b) The amount of the financial assurance must be at least equal to the estimated amount by which the cost of removing the solar power facilities from the landowner’s property and restoring the property to as near as reasonably possible the condition of the property as of the date the agreement begins exceeds the salvage value of the solar power facilities, less any portion of the value of the solar power facilities pledged to secure outstanding debt.

(c) The agreement must provide that:

(B) at least once every five years after the commercial operations date of the solar power facilities for the remainder of the term of the agreement; and

(3) the grantee is responsible for ensuring that the amount of the financial assurance remains sufficient to cover the amount required by Subsection (b), consistent with the estimates required by this subsection.

(d) The grantee is responsible for the costs of obtaining financial assurance described by this section and costs of determining the estimated removal costs and salvage value.

(e) The agreement must provide that the grantee shall deliver the financial assurance not later than the earlier of:

(1) the date the solar power facility agreement is terminated; or

(2) the 20th anniversary of the commercial operations date of the solar power facilities located on the landowner’s leased property.
For purposes of this section, "commercial operations date" means the date on which the solar power facilities are approved for participation in market operations by a regional transmission organization and does not include the generation of electrical energy or other operations conducted before that date for purposes of maintenance and testing.

The grantee may not cancel financial assurance before the date the grantee has completed the grantee’s obligation to remove the grantee’s solar power facilities located on the landowner’s property in the manner provided by this chapter, unless the grantee provides the landowner with replacement financial assurance at the time of or before the cancellation. In the event of a transfer of ownership of the grantee’s solar power facilities, the financial security provided by the grantee shall remain in place until the date evidence of financial security meeting the requirements of this chapter is provided to the landowner.

SECTION 3. Chapter 302, Utilities Code, as added by this Act, applies only to a solar power facility agreement entered into on or after the effective date of this Act. A solar power facility agreement entered into before the effective date of this Act is governed by the law as it existed immediately before that date, and that law is continued in effect for that purpose.

Sec. 96.0551. REGULATION AND EXAMINATION OF CERTAIN RELATED ENTITIES. (a) In this section, "state savings bank" has the meaning assigned by Section 31.002.

(b) The commissioner may regulate and examine, to the same extent as if the services or activities were performed by a state savings bank on its own premises:

(1) the activities of a state savings bank affiliate; and

SECTION 1. Subtitle B, Title 4, Local Government Code, is amended by adding Chapter 120 to read as follows:
CHAPTER 120. ELECTION FOR REDUCTION OF FUNDING OR RESOURCES FOR CERTAIN PRIMARY LAW ENFORCEMENT AGENCIES

Sec. 120.001. APPLICABILITY. This chapter applies only to a county with a population of more than one million.

Sec. 120.002. ELECTION REQUIRED. (a) Except as provided by Section 120.003, a county shall hold an election in accordance with this chapter if the county adopts a budget for a fiscal year that, compared to the budget adopted by the county for the preceding fiscal year:

(1) reduces for the law enforcement agency, excluding a 9-1-1 call center, with primary responsibility for policing, criminal investigation, and answering calls for service:

(A) for a fiscal year in which the overall amount of the budget is equal to or greater than the amount for the preceding fiscal year, the appropriation to the agency;

(B) for a fiscal year in which the overall amount of the budget is less than the amount for the preceding fiscal year, the appropriation to the agency as a percentage of the total budget;

(C) as applicable:

(i) if the county has not declined in population since the preceding fiscal year, the number of peace officer positions, excluding detention officer positions; or

(ii) if the county has declined in population since the preceding fiscal year, the number of peace officer positions, excluding detention officer positions, the law enforcement agency is authorized to employ per 1,000 county residents; or

(D) the amount of funding per peace officer for the recruitment and training of new peace officers to fill vacant and new peace officer positions in the agency; or

(2) reallocates funding or resources to another law enforcement agency.

(b) A county may not implement a proposed reduction or reallocation described by Subsection (a) until the county receives voter approval for the proposed reduction or reallocation at an election held for that purpose. The county may, at any time, order the election to be held on the 30th day after the date the county orders the election. Section 41.001, Election Code, does not apply to an election under this subsection.

(c) For purposes of this section, a county budget does not include:

(1) a one-time extraordinary expense, as determined by the comptroller, that is outside the normal costs of operating a law enforcement agency, including purchasing a fleet of law enforcement vehicles or constructing an additional training academy;

(2) revenues used to repay voter-approved bonded indebtedness incurred for a law enforcement purpose;

(3) detention officer compensation; or

(4) a donation or state or federal grant to the county’s law enforcement agency.
Sec. 120.003. DISASTER EXCEPTION. Section 120.002 does not apply to a county budget adopted for a fiscal year in which, or the two fiscal years following the fiscal year in which, a significant budget reduction from the preceding fiscal year was caused by a disaster, including a tornado, hurricane, flood, wildfire, or other calamity, but not including a drought, epidemic, or pandemic, in an area of the county that was the subject of a disaster declaration by the governor under Chapter 418, Government Code, or by the president of the United States.

Sec. 120.004. BALLOT PROPOSITION REQUIREMENTS. A county holding an election under this chapter shall ensure that the ballot proposition for the election includes, as applicable:

(1) a detailed explanation of each proposed reduction;
(2) the amount of each proposed reduction;
(3) the recipient of reallocated funding or resources;
(4) the impact on the local tax rate, if any; and
(5) the expected length of time that the proposed reduction or reallocation will remain in effect.

Sec. 120.005. USE OF PUBLIC MONEY FOR CAMPAIGN PROHIBITED. A county holding an election under this chapter may not use public money on promotional campaigns or advocacy related to the proposed reduction or reallocation. This section may not be construed to prevent a county official or employee from communicating factual information about a proposed budget or the reasoning behind a proposed budget to the voters in the county.

Sec. 120.006. COMPLAINT. (a) A person who believes that a county has implemented a proposed reduction or reallocation described by Section 120.002(a) without the required voter approval and who resides in the county may file a complaint with the criminal justice division of the office of the governor.

(b) The criminal justice division of the office of the governor shall determine whether a complaint filed under Subsection (a) is potentially valid or frivolous or false.

(c) The criminal justice division of the office of the governor shall provide written notice of a potentially valid complaint filed under Subsection (a) to the county that is the subject of the complaint. The division shall provide the county an opportunity to correct the action that is the subject of the complaint before referring the complaint to the comptroller.

Sec. 120.007. COMPTROLLER INVESTIGATION; TAX RATE LIMITATION. (a) On request by the criminal justice division of the office of the governor, the comptroller shall determine whether a county has implemented a proposed reduction or reallocation described by Section 120.002(a) without the required voter approval. The comptroller shall issue a written determination to the governor, lieutenant governor, speaker of the house of representatives, and governing body of the county.

(b) The comptroller may require a county to submit information for the current or preceding fiscal year to assist the comptroller's investigation under this section.
(c) Notwithstanding any other law, if the comptroller determines that a county implemented a proposed reduction or reallocation described by Section 120.002(a) without the required voter approval, the county may not adopt an ad valorem tax rate that exceeds the county’s no-new-revenue tax rate until the earlier of:

(1) the date the comptroller issues a written determination that the county has, as applicable:
   (A) reversed each funding reduction, adjusted for inflation, and personnel reduction that was a subject of the determination; or
   (B) restored all reallocated funding and resources that were subjects of the determination to the original law enforcement agency; or

(2) the date on which each reduction and reallocation that was a subject of the determination has been approved in an election held in accordance with this chapter.

(d) For purposes of making the calculation required under Section 26.013, Tax Code, in a tax year the comptroller determines that a county implemented a proposed reduction or reallocation described by Section 120.002(a) without the required voter approval, the difference between the actual tax rate and voter-approval tax rate is considered to be zero.

Floor Amendment No. 19

Amend CSSB 3 (house committee printing) by adding the following SECTIONS to the bill and renumbering subsequent SECTIONS of the bill accordingly:

SECTION ___. It is the intent of the legislature in enacting Section 35.037, Utilities Code, to allow grocers the ability to deploy back-up generation in the ERCOT power region in areas that have not implemented retail customer choice.

SECTION ___. Subchapter B, Chapter 35, Utilities Code, is amended by adding Section 35.037 to read as follows:

Sec. 35.037. INTERCONNECTION AND OPERATION OF CERTAIN DISTRIBUTED GENERATION FACILITIES FOR FOOD SUPPLY CHAIN. (a) In this section:
(1) "Customer" means a retail electric customer:
(A) with a distributed generation facility installed on the retail electric customer's side of the meter; and
(B) that has a primary purpose of or derives a material source of revenue from:
(i) retail grocery sales; or
(ii) food manufacturing or distribution for retail grocery sales.
(2) "Distributed generation facility" means a facility installed on the customer's side of the meter but separately metered from the customer:

(A) with a nameplate capacity of at least 250 kilowatts and not more than 10 megawatts;

(B) that is capable of generating and providing backup or supplementary power to the customer's premises; and

(C) that is owned or operated by a person registered as a power generation company in accordance with Section 39.351.

(b) This section only applies in the ERCOT power region in areas where retail customer choice has not been implemented.

(c) A person who owns or operates a distributed generation facility served by a municipally owned utility or electric cooperative in the ERCOT power region may sell electric power generated by the distributed generation facility at wholesale, including the provision of ancillary services, subject to the limitations of this section.

(d) A person who owns or operates a distributed generation facility may sell electric power generated by the distributed generation facility at wholesale to a municipally owned utility or electric cooperative certificated for retail service to the area where the distributed generation facility is located or to a related generation and transmission electric cooperative. The municipally owned utility or electric cooperative shall purchase at wholesale the quantity of electric power generated by the distributed generation facility needed to satisfy the full electric requirements of the customer on whose side of the meter the distributed generation facility is installed and operated at a wholesale price agreed to by the customer and shall resell that quantity of power at retail to the customer at the rate applicable to the customer for retail service, which must at minimum include all amounts paid for the wholesale electric power, during:

(1) an emergency declared by the independent organization certified under Section 39.151 for the ERCOT power region that creates the potential for interruption of service to the customer;

(2) any service interruption at the customer's premises;

(3) construction on the customer's premises that creates the potential for interruption of service to the customer;

(4) maintenance and testing of the distributed generation facility; and

(5) additional times mutually agreed on by the owner or operator of the distributed generation facility and the municipally owned utility or electric cooperative.

(e) The customer shall provide written notice as soon as reasonably practicable to the municipally owned utility or electric cooperative of a circumstance described by Subsection (d)(3) or (4).

(f) In addition to a sale authorized under Subsection (d), on request by an owner or operator of a distributed generation facility, the municipally owned utility or electric cooperative shall provide wholesale transmission service to the distributed generation facility owner in the same manner as to other power generation companies for the sale of power from the distributed generation facility at wholesale, including for the provision of ancillary services, in the ERCOT market. The distributed generation facility owner shall comply with all applicable commission rules and
protocols and with governing documents of the independent organization certified under Section 39.151 for the ERCOT power region. This section does not require a municipally owned utility or electric cooperative to transmit electricity to a retail point of delivery in the certificated service area of the municipally owned utility or electric cooperative.

(g) In addition to a sale authorized under Subsection (d) or (f), a municipally owned utility or electric cooperative or related generation and transmission electric cooperative may purchase electric power provided by the owner or operator of the distributed generation facility at wholesale at a mutually agreed on price. The price may be based wholly or partly on the ERCOT market clearing price of energy at the time of day and at the location at which the electric power is made available.

(h) A municipally owned utility or electric cooperative shall make available a standard interconnection application and agreement for distributed generation facilities that is substantially similar to the commission’s interconnection agreement form and consistent with this section to facilitate the connection of distributed generation facilities. A municipally owned utility or electric cooperative shall allow interconnection of a distributed generation facility and provide to a distributed generation facility on a nondiscriminatory basis wholesale transmission service, including at distribution voltage, in the same manner as for other power generation companies to transmit to the ERCOT power grid the electric power generated by the distributed generation facility. A municipally owned utility or electric cooperative may recover from the owner or operator of the distributed generation facility all reasonable costs necessary for and directly attributable to the interconnection of the facility, including the reasonable costs of necessary system upgrades and improvements directly attributable to the distributed generation facility.

(i) Not later than the 30th day after the date a complete application for interconnection of a distributed generation facility is received, the municipally owned utility or electric cooperative shall provide the applicant with a written good faith cost estimate for interconnection-related costs. The municipally owned utility or electric cooperative may not incur any interconnection-related costs without entering into a written agreement for the payment of those costs by the applicant.

(j) The process to interconnect a distributed generation facility must be completed not later than the 240th day after the date the municipally owned utility or electric cooperative receives payment of all estimated costs to complete the interconnection, except that:

(1) the period may be extended by written agreement between the parties; or

(2) the period may be extended after a good faith showing by the municipally owned utility or electric cooperative that the interconnection requires improvements, upgrades, or construction of new facilities that cannot reasonably be completed within that period, in which case the period may be extended for a time not to exceed the time necessary for the improvements, upgrades, or construction of new facilities to be completed.

(k) A municipally owned utility or electric cooperative shall charge the owner or operator of a distributed generation facility rates on a reasonable and nondiscriminatory basis for providing wholesale transmission service to the distributed generation facility owner in the same manner as for other power generation
companies to transmit to the ERCOT power grid the electric power generated by the
distributed generation facility in accordance with a tariff filed by the municipally
owned utility or electric cooperative with the commission.

(l) The owner or operator of the distributed generation facility shall contract
with the municipally owned utility or electric cooperative or the municipally owned
utility's or electric cooperative's designee for any scheduling, settlement,
communication, telemetry, or other services required to participate in the ERCOT
wholesale market, but only to the extent that the utility, cooperative, or designee offers
the services on a nondiscriminatory basis and at a commercially reasonable cost. If the
municipally owned utility or electric cooperative or the municipally owned utility's or
electric cooperative's designee does not offer or declines to offer the services, or fails
to do so on a nondiscriminatory basis and at a commercially reasonable cost as
determined by quotes from at least three third parties providing the same services, the
owner or operator of the distributed generation facility may contract with a third party
provider to obtain the services.

(m) A distributed generation facility must comply with emissions limitations
established by the Texas Commission on Environmental Quality for a standard
emissions permit for an electric generation facility unit installed after January 1, 1995.

(n) A municipally owned utility or electric cooperative is not required to
interconnect a distributed generation facility under this section if, on the date the
utility or cooperative receives an application for interconnection of the facility, the
municipally owned utility or electric cooperative has interconnected distributed
generation facilities with an aggregate capacity that equals the lesser amount of:

(1) 5 percent of the municipally owned utility's or electric cooperative's
average of the 15-minute summer peak load coincident with the independent system
operator's 15-minute summer peak load in each of the months of June, July, August,
and September; or

(2) 300 megawatts, adjusted annually by the percentage of total system load
growth in the ERCOT power region beginning in 2022.

(o) A municipally owned utility or electric cooperative that, on the date the
utility or cooperative receives an application for interconnection of a distributed
generation facility, has interconnected distributed generation facilities with an
aggregate capacity less than the threshold described by Subsection (n) is required to
increase that capacity only up to that threshold.

(p) This section is not intended to change registration standards or other
qualifications required by the independent organization certified under Section 39.151
for the ERCOT power region related to the participation of distributed generation
facilities in the wholesale market. This section is not intended to allow distributed
generation facilities to participate in a manner that is not technically feasible or that is
otherwise in conflict with wholesale rules and requirements adopted by the
independent organization certified under Section 39.151 for the ERCOT power
region.

Floor Amendment No. 20

Amend CSSB 3 (house committee printing) by adding the following
appropriately numbered SECTION to the bill and renumbering subsequent
SECTIONS of the bill accordingly:
SECTION ____. Subchapter B, Chapter 35, Utilities Code, is amended by adding Section 35.037 to read as follows:

Sec. 35.037. FACILITATING CERTAIN INTERCOMPANY LANDFILL GAS-TO-ELECTRICITY USE. (a) This section only applies in a county with a population of more than one million in which a national wildlife refuge is wholly or partly located.

(b) Notwithstanding any other provision of this title, and for the purposes of reducing environmental emissions, putting to a beneficial purpose landfill gas as an electric generation fuel that would otherwise be flared, enabling the operation of electric generation to a greater degree, and enhancing the reliability and resilience of electric service in this state, a person who is not an electric utility and who owns and operates equipment or facilities to produce, generate, transmit, distribute, store, sell, or furnish electricity produced by the use of landfill methane gas may:

(1) use the equipment or facilities to provide electricity and electric service to the person and to the person's affiliates without being considered to be an electric utility, a public utility, a retail electric provider, a power marketer, or a person providing aggregation;

(2) interconnect the equipment or facilities in a timely manner and on reasonable and nondiscriminatory terms and conditions with any electric utility, municipally owned utility, or electric cooperative that has a retail service area for any portion of the equipment or facilities; and

(3) receive backup, supplemental, or other electric service for any of the person's or the person's affiliates' facilities that consume electricity from any electric utility, municipally owned utility, or electric cooperative that has a retail service area for any portion of the person's facilities or equipment that are interconnected regardless of whether those facilities are in the same retail service area as the location of the interconnection point.

(c) Backup, supplemental, or other electric service provided under this section through an interconnection for a person's electricity-consuming facilities that are connected to the person's interconnected equipment or facilities does not constitute a service area encroachment or other violation of law by the electric utility, municipally owned utility, or electric cooperative supplying the backup, supplemental, or other electric service.

Floor Amendment No. 22

Amend CSSB 3 (house committee printing) by adding the following appropriately numbered SECTIONS to the bill and renumbering subsequent SECTIONS of the bill accordingly:

SECTION ___. Section 35.151, Utilities Code, is amended to read as follows:

Sec. 35.151. ELECTRIC ENERGY STORAGE. This subchapter applies only to the ownership or operation of electric energy storage equipment or facilities in the ERCOT power region that are intended to:

(1) provide energy or ancillary services at wholesale, including electric energy storage equipment or facilities listed on a power generation company’s registration with the commission or, for an exempt wholesale generator, on the generator’s registration with the Federal Energy Regulatory Commission; or

(2) provide reliable delivery of electric energy to distribution customers.

SECTION ___. Subchapter E, Chapter 35, Utilities Code, is amended by adding Section 35.153 to read as follows:

Sec. 35.153. CONTRACTS FOR ELECTRIC ENERGY STORAGE FOR RELIABILITY SERVICES. (a) A transmission and distribution utility, with prior approval of the commission, may contract with a power generation company to provide electric energy from an electric energy storage facility to ensure reliable service to distribution customers.

(b) The commission may not authorize ownership of an electric energy storage facility by a transmission and distribution utility.

(c) Before entering into a contract under Subsection (a), the transmission and distribution utility must issue a request for proposals for use of an electric energy storage facility to meet the utility’s reliability needs.

(d) A transmission and distribution utility may enter into a contract under Subsection (a) only if use of an electric energy storage facility is more cost-effective than construction or modification of traditional distribution facilities.

(e) A transmission and distribution utility may not enter into a contract under Subsection (a) that reserves an amount of capacity exceeding the amount of capacity required to ensure reliable service to the utility’s distribution customers.

(f) A power generation company that owns or operates an electric energy storage facility subject to a contract under Subsection (a) may sell electric energy or ancillary services through use of the facility only to the extent that the company reserves capacity as required by the contract.

(g) A power generation company that owns or operates an electric energy storage facility subject to a contract under Subsection (a) may not discharge the facility to satisfy the contract’s requirements unless directed by the transmission and distribution utility.

(h) A contract under Subsection (a) must require a power generation company that owns or operates an electric energy storage facility to reimburse a transmission and distribution utility for the cost of an administrative penalty assessed against the utility for a violation caused by the facility’s failure to meet the requirements of the agreement.
In establishing the rates of a transmission and distribution utility, a regulatory authority shall review a contract between the utility and a power generation company under Subsection (a). The utility has the burden of proof to establish that the costs of the contract are reasonable and necessary. The regulatory authority may authorize a transmission and distribution utility to include a reasonable return on the payments required under the contract only if the contract terms satisfy the relevant accounting standards for a capital lease or finance lease.

(j) The total amount of electric energy storage capacity reserved by contracts under Subsection (a) may not exceed 100 megawatts. The commission shall by rule establish the maximum amount of electric energy storage capacity allotted to each transmission and distribution utility.

(k) The commission shall adopt rules as necessary to implement this section and establish criteria for approving contracts under Subsection (a).
