The Presiding Officer laid the bill and the House amendments before the Senate.

Amendment

Amend **SB 1238** by substituting in lieu thereof the following:

A BILL TO BE ENTITLED AN ACT

relating to broadband development.

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF TEXAS:

SECTION 1. Sections 4901.0101(a) and (b), Government Code, are amended to read as follows:

(a) For purposes of this chapter, subject to Subsection (b), "broadband service" means Internet service with the capability of providing a:

(1) ~~[a download]~~ speed of not less than 25 megabits per second for a download ~~[or faster]; and~~

(2) ~~[an upload]~~ speed of not less than three megabits per second for an upload; and

(3) network round-trip latency of less than or equal to 100 milliseconds based on the 95th percentile of speed measurements ~~[or faster].~~

(b) If the Federal Communications Commission adopts standards ~~[upload or download threshold speeds]~~ for advanced telecommunications capability under 47 U.S.C. Section 1302 that are different than those specified by Subsection (a), the comptroller by rule may require Internet service to be capable of matching the ~~[providing download or upload speeds that match that]~~ federal standards [threshold] in order to qualify under this chapter as "broadband service."

SECTION 2. Sections 490I.0105(a), (b), (c), (d), (f), (k), (l), (n), (o), and (p), Government Code, are amended to read as follows:

(a) The broadband development office shall create, update annually, and publish on the comptroller's Internet website a map classifying each broadband serviceable location ~~[designated area]~~ in this state as:

(1) an unserved location ~~[eligible area,]~~ if:

~~[(A) fewer than 80 percent of the addresses in]~~ the location does not ~~[designated area]~~ have access to reliable broadband service capable of providing the speeds described by Section 490I.0101(a); and

~~[(B) the federal government has not awarded funding under a competitive process to support the deployment of broadband service to addresses in the designated area; or]~~

(2) an underserved location ~~[ineligible area,]~~ if the location is not an unserved location but does not:

~~[(A) 80 percent or more of the addresses in the designated area]~~ have access to reliable broadband service with the capability of providing:

(A) a speed of not less than 100 megabits per second for a download;

(B) a speed of not less than 20 megabits per second for an upload; and

(C) a network round-trip latency of less than or equal to 100 milliseconds based on the 95th percentile of speed measurements; or

(3) a served location if the location is neither an unserved nor an underserved location ~~[(B) the federal government has awarded funding under a competitive process to support the deployment of broadband service to addresses in the designated area].~~

(b) The comptroller by rule may establish new threshold speeds for a location to qualify as an unserved location if the comptroller has required Internet service to be capable of matching federal standards to qualify as broadband service under Section 490I.0101(b) ~~[determine the scope of a designated area under Subsection (a)].~~

(c) After creation of the initial map described in Subsection (a), the office may evaluate the usefulness of the standards for unserved and underserved locations ~~[eligible and ineligible areas]~~ outlined in Subsection (a) and, if appropriate, make a recommendation to the legislature to revise the standards.

(d) The map required by Subsection (a) must organize broadband serviceable locations into designated areas and display for each area:

(1) the number of broadband service providers that serve the [each designated] area;

(2) ~~[for each eligible area,]~~ an indication of whether the area has access to Internet service that is not broadband service, regardless of the technology used to provide the service; ~~[and]~~

(3) each public school campus ~~[in this state]~~ with an indication of whether the public school campus has access to broadband service; and

(4) the number and percentage of unserved, underserved, and served locations within the area.

(f) Except as provided by Subsection (g), the office shall use the best available data, including information available from the Federal Communications Commission, to create or update the map.

(k) A person who contracts under Subsection (i) may not provide services in this state to [for] a broadband provider ~~[in this state]~~ before the second anniversary of the last day the contract is in effect.

(l) The office shall establish criteria for determining whether a broadband serviceable location [designated area] should be reclassified as an unserved or underserved location [eligible area or an ineligible area]. The criteria must include an evaluation of Internet speed test and reliability data [and information on end user addresses. The criteria may also include community surveys regarding the reliability of Internet service, where available].

(n) A broadband service provider or political subdivision may petition the office to reclassify a broadband serviceable location [designated area on the map as an eligible area or ineligible area]. The office shall provide notice of each accepted [the] petition to each affected broadband service provider and political subdivision by posting [that provides broadband service to the designated area and post] notice of the petition on the comptroller's Internet website.

(o) Not later than the 45th day after the date that the office posts [a broadband provider receives] notice under Subsection (n), each affected broadband service [the] provider or political subdivision may [shall] provide information to the office showing whether the broadband serviceable location [designated area] should or should not be reclassified.

(p) Not later than the 75th day after the date that the office posts the [a broadband provider receives] notice under Subsection (n), the office shall determine whether to reclassify the broadband serviceable location [designated area] on the map and update the map as necessary. A determination made by the office under this subsection is not a contested case for purposes of Chapter 2001.

Sec. 490I.0106. BROADBAND DEVELOPMENT PROGRAM. (a) The broadband development office shall establish a program to award grants, low-interest loans, and other financial incentives to applicants for the purpose of expanding access to and adoption of broadband service ~~[in designated areas determined to be eligible areas by the office under Section 490I.0105].~~

(a-1) The office may award grants, low-interest loans, and other financial incentives to applicants for eligible broadband infrastructure projects designed to provide qualifying broadband service to unserved and underserved locations. For the purposes of this subsection, an eligible broadband infrastructure project includes a project in which not less than 80 percent of the broadband serviceable locations to be served by the project are unserved and underserved locations.

(a-2) The office may award grants, low-interest loans, and other financial incentives to applicants for middle-mile broadband infrastructure projects.

(a-3) The office may award grants, low-interest loans, and other financial incentives to applicants for projects not involving the deployment of broadband infrastructure that expand the accessibility, affordability, or adoption of broadband service, including education, training, community outreach, remote learning or telehealth facilities, equipment purchases, or any other use permitted by the applicable funding source.

(b) The office shall establish eligibility and award ~~and publish~~ criteria for making awards under this chapter for each applicable notice of funds availability. The comptroller by rule may prescribe the manner in which the office shall provide notice to applicants of the applicable criteria ~~Subsection (a)~~. In establishing eligibility and award criteria, the ~~The~~ office shall:

(1) take into consideration grants and other financial incentives awarded by the federal government for the deployment of broadband service ~~in a designated area~~;

(2) prioritize the applications of applicants that will expand access to and adoption of broadband service in designated ~~eligible~~ areas in which the highest ~~lowest~~ percentage of broadband serviceable locations are unserved or underserved locations; ~~addresses have access to broadband service; and~~

(3) prioritize the applications of applicants that will expand access to broadband service in public and private primary and secondary schools and institutions of higher education;

(4) give preference to an applicant that provided the information requested by the office under Section 490I.0105 or 490I.0106; and

(5) take into consideration whether an applicant has forfeited federal funding for defaulting on a project to deploy qualifying broadband service.

(c) Notwithstanding Subsection (b)(2), the office may establish criteria that take into account a cost benefit analysis for awarding money to the ~~eligible~~ areas described by that subdivision.

(d) The office may not:

(1) favor a particular broadband technology in awarding grants, loans, or other financial incentives;

(2) ~~award grants, loans, or other financial incentives to a broadband provider that does not report information requested by the office under Section 490I.0105;~~

~~(3)~~ award a grant, loan, or other financial incentive to a noncommercial provider of broadband service for a broadband serviceable location ~~an eligible area~~ if an eligible ~~an~~ commercial provider of broadband service has submitted an application for the same location; ~~eligible area; or~~

(3) ~~(4)~~ take into consideration distributions from the state universal service fund established under Section 56.021, Utilities Code, when deciding to award grants, loans, or other financial incentives; or

(4) except as provided by Section 490I.01061, award a grant, loan, or other financial incentive for deployment of last-mile broadband service for a location that is subject to a federal commitment to deploy qualifying broadband service on the date the application is submitted or during the application process.

(e) The office shall:

(1) post on the comptroller's Internet website information about the application process and the receipt of awards and shall update that information as necessary; and

(2) post on the comptroller's Internet website for at least 30 days information from each accepted application, including the applicant's name, the area targeted for expanded broadband service access or adoption by the application, and any other information the office considers relevant or necessary~~], for a period of at least 30 days before the office makes a decision on the application].~~

(f) During the 30-day posting period described by Subsection (e) for an application, the office shall accept from any interested party, other than a broadband service provider that does not report information requested by the office under Section 490I.0105 or 490I.01061, a written protest of the application relating to whether the applicant or project is eligible for an award or should not receive an award based on the criteria prescribed by the office.

(g) Notwithstanding any deadline for submitting an application, if the office upholds a protest submitted under Subsection (f) on the grounds that one or more of the broadband serviceable locations are not eligible to receive funding under this chapter [addresses in an eligible area subject to the application have access to broadband service], the applicant may resubmit the application without the challenged locations [addresses] not later than 30 days after the date that the office upheld the protest.

(h) The office shall establish and publish criteria for award recipients. The criteria must include requirements that grants, loans, and other financial incentives awarded through the program for the deployment of broadband infrastructure may be used only for capital expenses, purchase or lease of property, and other expenses, including backhaul and transport, that will facilitate the provision or adoption of broadband service.

(i) An award granted under this section does not affect the eligibility of a telecommunications provider to receive support from the state universal service fund under Section 56.021, Utilities Code.

(b) Subject to Subsection (c), the amount of the cost-of-living adjustment provided by Subsection (a) is an amount equal to the annuitant's monthly annuity payment for the month the adjustment is effective multiplied by a percentage rate that is computed by:

SECTION 4. Section 825.404(a-2), Government Code, is amended to read as follows:

(a-2) The state contribution required by Subsection (a) is:

SECTION 5. Subchapter E, Chapter 825, Government Code, is amended by adding Section 825.4042 to read as follows:

Sec. 825.4042. ACTUARIALLY DETERMINED PAYMENTS. (a) In addition to the state contributions required by this subtitle, each fiscal year the state shall make an actuarially determined payment in the amount necessary to amortize the system's unfunded actuarial liabilities by not later than the fiscal year ending August 31, 2054.

(b) Before each regular legislative session, the retirement system shall provide the Legislative Budget Board with the amount necessary to make the actuarially determined payment required under Subsection (a). The director of the Legislative

Budget Board, under the direction of the Legislative Budget Board, shall include that payment in the general appropriations bill prepared for introduction at each regular legislative session under Section 322.008. This section expires September 1, 2055.

SECTION 6. (a) Subject to Subsections (e) and (i) of this section and Section 821.006, Government Code, and except as provided by Subsection (g) of this section, the Teacher Retirement System of Texas shall make a one-time supplemental payment of a retirement or death benefit, as provided by this section.

(b) The supplemental payment is payable not later than February 2024 and, to the extent practicable, on a date or dates that coincide with the regular annuity payment payable to each eligible annuitant.

(c) The amount of the supplemental payment is equal to \$5,000.

(d) The supplemental payment is payable without regard to any forfeiture of benefits under Section 824.601, Government Code. The Teacher Retirement System of Texas shall make applicable tax withholding and other legally required deductions before disbursing the supplemental payment. A supplemental payment under this section is in addition to and not in lieu of the regular monthly annuity payment to which the eligible annuitant is otherwise entitled.

(e) To be eligible for the supplemental payment, a person must be, for the calendar month immediately prior to the calendar month in which the Teacher Retirement System of Texas issues the one-time supplemental payment in accordance with Subsection (b) of this section, an annuitant who is:

(1) at least 70 years of age; and

(2) eligible to receive:

(A) a standard retirement annuity payment;

(B) an optional retirement annuity payment as either a retiree or beneficiary;

(C) a life annuity payment under Section 824.402(a)(4), Government Code;

(D) an annuity for a guaranteed period of 60 months under Section 824.402(a)(3), Government Code; or

(E) an alternate payee annuity payment under Section 804.005, Government Code.

(f) The supplemental payment is in addition to the guaranteed number of payments under Section 824.204(c)(3) or (4), Section 824.308(c)(3) or (4), or Section 824.402(a)(3), Government Code, and may not be counted as one of the guaranteed monthly payments.

(g) The supplemental payment does not apply to payments under:

(1) Section 824.304(a), Government Code, relating to disability retirees with less than 10 years of service credit;

(2) Section 824.804(b), Government Code, relating to participants in the deferred retirement option plan with regard to payments from their deferred retirement option plan accounts;

(3) Section 824.501(a), Government Code, relating to retiree survivor beneficiaries who receive a survivor annuity in an amount fixed by statute; or

(4) Section 824.404(a), Government Code, relating to active member survivor beneficiaries who receive a survivor annuity in an amount fixed by statute.

(h) The board of trustees of the Teacher Retirement System of Texas shall determine the eligibility for and the amount and timing of a supplemental payment and the manner in which the payment is made.

(i) The Teacher Retirement System of Texas is required to make a one-time supplemental payment of benefits under this section only if the board of trustees of the Teacher Retirement System of Texas finds that the legislature appropriated money to the retirement system in an amount sufficient to provide the supplemental payment. The amount appropriated by the legislature to provide the supplemental payment must be in addition to the amount the state is required to contribute to the retirement system under Section 825.404, Government Code, as amended by this Act.

(j) If the board of trustees of the Teacher Retirement System of Texas determines that the appropriation provided by the legislature for the one-time supplemental payment of benefits under this section is different from the amount required to issue the supplemental payment, the comptroller, after the end of the fiscal year, shall make adjustments in the teacher retirement fund and the general revenue fund so that the total transfers during the year equal the total amount of the funds required for the supplemental payment. This transfer of funds is in addition to and separate from the amount the state is required to contribute to the retirement system under Section 825.404, Government Code, as amended by this Act.

SECTION 7. This Act takes effect January 1, 2024, but only if the constitutional amendment proposed by the 88th Legislature, Regular Session, 2023, authorizing the legislature to provide cost-of-living adjustments or other benefit enhancements to eligible annuitants of the Teacher Retirement System of Texas and providing a one-time transfer of funds for contributions, actuarially determined payments, and benefit enhancements is approved by the voters. If that proposed constitutional amendment is not approved by the voters, this Act has no effect.
